Preface

This Technical Specification (TL) contains information relating to data transfer and applies in combination with TL A-0032 Parts 1 and 2.

TECHNICAL REQUIREMENTS

The GTIN assigned in accordance with TL A-0032 Part 1 plus the related logistic data shall be made available to the customer as an editable list, e.g. an EXCEL file.

The following shall be observed when adding GS1 GTIN to the cataloguing data:

1. Stock number
The stock number shall be entered in column 1 as a result of the cataloguing process.
2. Original product data / original manufacturer data
Original product data and original manufacturer data shall be entered in column 2 (manufacturer code - "HERSTK original"), in column 3 (part number - "TKZ original") and in column 4 (GS1 GTIN). Columns 5 and 6 shall not be filled / shall be deleted.
3. Data not created by the original manufacturer
When the GS1 GTIN to be entered has been issued by a dealer / marketing company (not the original manufacturer), then the GS1 GTIN shall be entered in column 4. The company own data manufacturer code (HSTK) shall be entered in column 5 as 5-digit numbers or as text field; any additional company own part numbers / order numbers or other numbers shall be entered in column 6. Original product data and original manufacturer data shall be entered in column 2 (manufacturer code - HERSTK) and in column 3 (part number - TKZ).
4. Other cataloguing data
When other documents (e.g. design drawing, parts list, specifications, cataloguing sheets/excerpts) are required for product identification, the German National Codification Bureau will issue a separate request.
5. Data transfer
The table shall be sent by email to:
LogKdoBwAbtPlanungIII7VAKonz@bundeswehr.org
or by mail on a data storage medium to:

Logistikkommando der Bundeswehr
Abt Planung III 7 VAKonz
Luisenstr. 109

53721 Siegburg

The layout of a list is illustrated in the following examples:

Column 1	Column 2	Column 3	Column 4	Column 5	Column 6
Stock number	HERSTK, original	TKZ-original	GS1 GTIN	HERSTK	TKZ
13 digits	Text field/ 5 digits	32 digits max.	14 digits (with 0 as lead number)	Text field/ 5 digits	32 digits max.

Data transfer by means of standard formats:

CSV file:

Will be supplemented after tests (SASPF) using test data of different companies/manufacturers.

This part of the TL will be updated.
